Conversational Reading

Experience the delight of conversational reading with your child.

The advantages are many, such as drawing children into the story, boosting their reading skills, significantly improving their language abilities, particularly between 18-24 months, and providing quality time to bond with a loved one.

Conversational reading can look as simple as:

See

Show

Say

Make it a conversation by engaging your child in the story

"I can see an Owl!"

"Can you show me where the Owl is?"

"What's this animal here?"

(pointing to Owl)
